

**Activity Number** ACT-0003896

**Activity Name:** Pacific Regional - PCTRADE: Customs

**Objective:**

PC Trade is a simple computer based software system designed by Statistics NZ to capture the trade statistics. The system is installed in six Customs Offices and 12 Statistics Offices across the region. On-gong training and help-desk support is provided by Statistics New Zealand. This activity has the intended purpose(s) to build statistical capability in Pacific Island Countries and Territories (PICTs), enabling provision of accurate and timely merchandise trade data and analysis.
