Activity Number ACT-0100485

Activity Name: Renewable Energy Expansion and Renewal

Objective:

The objective of this activity is to increase access to reliable clean energy for the people of Tokelau by expanding each village's solar photovoltaic (PV) capacity and improving RE asset management processes. This Activity will be delivered through co-financing and technical assistance to expand RE infrastructure and replace components at end of life. This will support Tokelaus sustainable energy generation and minimise any reliance on fossil fuels.
