

Activity Number ACT-0100717

Activity Name: Activity Development: Health Corridors -
Strengthening Health Systems

Objective:

Strengthening Health Systems approach to develop an indicative programme business case which outlines the specific initiatives that New Zealand is best placed to support with the intended purpose(s) to design the programme for the Polynesia Health Corridors: Strengthening Health Systems. A successful response would ensure stronger health systems in Polynesia through 'health corridors' and networks to enable more effective and efficient use of existing resources, ultimately resulting in improved health outcomes in the region, due to improved access to resources and stronger health systems.
