Activity Number ACT-0A11309

Activity Name: Aquaculture Development in Timor-Leste

Objective:

This activity focuses on developing a sustainable aquaculture industry through improved technology, strengthening aquaculture capacity, supporting a sustainable input supply system, connecting producers to markets, and establishing effective partnerships among key sector stakeholders, from national to local levels. The intended purpose(s) is that Aquaculture capability within Timor-Leste supports a self-sustaining aquaculture industry that addresses nutrition, food security and income generation targets.
