

Activity Number ACT-0A11734

Activity Name: Cambodia- Disaster Resilience through Improved
Education and Livelihoods in Koh Kong Province

Objective:

Save the Children NZ will implement a 3-year activity that focuses on increasing awareness of Disaster Risk Reduction and Climate Change Adaptation and promoting hazard mapping, land use planning and better environmental management in the coastal regions of Koh Kong Province, Cambodia. This will help communities to diversify their livelihoods and to increase their economic and social resilience.
