Activity Number ACT-0A12104

Activity Name: Viet Nam Dam Safety Project

Objective:

This Activity's objective aims to provide Vietnamese dam owners, industry professionals and government agencies with the skills, tools and processes to dramatically reduce the risk and impact (economic and human losses) of extreme dam discharge or failure by improving risk management across the Ca River Basin in Nghe An and Ha Tinh Provinces. The intended purpose(s) is to reduce risk and impact (economic and human losses) of dam failures in the Ca River basin, Viet Nam.
