Regional Value Content

For the purposes of this Chapter, the formula for calculating the regional value content ("RVC") shall be either:

\[
RVC = \left[ \frac{\text{material cost} + \text{labour cost} + \text{overhead cost} + \text{profit} + \text{other costs}}{\text{FOB}} \right] \times 100 \%
\]

or

(b) build-down formula

\[
RVC = \left[ \frac{\text{FOB} - \text{value of non-originating materials}}{\text{FOB}} \right] \times 100 \%
\]

where:

(i) material cost is the value of originating materials, parts or produce that are acquired or self-produced by the producer in the production of the good;

(ii) labour cost includes wages, remuneration and other employee benefits;

(iii) overhead cost is the total overhead expense including product development and other production costs;

(iv) other costs are the costs incurred in placing the good in the ship or other means of transport for export, including domestic
transport costs, storage and warehousing, port handling, brokerage fees and service charges;

(v) FOB is the free-on-board value of the goods as defined in Article 1; and

(vi) value of non-originating materials is the CIF value at the time of importation or the earliest ascertained price paid or payable in the Area of the Party where the production takes place for all non-originating materials, parts or produce that are acquired by the producer in the production of the good. When the producer of a good acquires non-originating materials within that Party the value of such materials shall not include freight, insurance, packing costs and any other costs incurred in transporting the material from the supplier’s warehouse to the producer’s location. Non-originating materials include materials of undetermined origin but do not include a material that is self-produced.

Article 6
Accumulation

Originating materials from the Area of a Party, incorporated into a good in the Area of the other Party, shall be considered to originate in the Area of the other Party.

Article 7
Minimal Operations and Processes

1. Operations or processes undertaken by themselves or in combination with each other for purposes such as those listed below are considered to be minimal and shall not confer origin:
(a) ensuring preservation in good condition for the purposes of transport or storage;

(b) facilitating shipment or transportation;

(c) packaging or presenting goods for sale;

(d) affixing of marks, labels or other like distinguishing signs on products or their packaging;

(e) simple processes consisting of sifting, classifying, washing, cutting, slitting, bending, coiling and uncoiling and other similar operations; and

(f) mere dilution with water or another substance that does not materially alter the characteristics of the goods.

2. Where a RVC approach has been applied, minimal processes and operations referred to in Paragraph 1 shall be taken into account for the RVC calculation.

**Article 8**

**De Minimis**

Each Party shall provide that a good that does not undergo a change in tariff classification pursuant to Annex I is nonetheless an originating good if:

(a) the value of all non-originating materials, including materials of undetermined origin, used or consumed in the production of the good that do not undergo the required change in tariff classification does not exceed ten percent of the FOB value of the good; and

(b) the good meets all other applicable requirements of this Chapter.
Article 9
Direct Consignment

A good shall retain its originating status as determined under Article 2 if the following conditions have been met:

(a) the good has been transported to the importing Party without passing through the territory of any non-Party; or

(b) the good has transited through one or more non-Parties, with or without transhipment or temporary storage of up to six months in those non-Parties, provided that:

(i) the good has not entered trade or commerce there; and

(ii) the good has not undergone any operation there other than unloading and reloading, repacking, or any operation required to preserve it in good condition or to transport it to the importing Party.

Article 10
Treatment of Packing Materials and Containers

1. Packing materials and containers for transportation and shipment of a good shall not be taken into account in determining the origin of any good.

2. Packing materials and containers in which a good is packaged for retail sale, when classified together with that good, shall not be taken into account in determining whether all of the non-originating materials used in the production of the good have met the applicable change in tariff classification requirements for the good.
3. If a good is subject to a regional value content requirement, the value of the packing materials and containers in which the good is packaged for retail sale shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.

Article 11
Accessories, Spare Parts, Tools and Instructional or Information Material

1. For the purpose of determining the origin of a good, accessories, spare parts, tools and instructional or other information materials presented with the good shall be considered part of that good and shall be disregarded in determining whether all the non-originating materials used in the production of the originating good have undergone the applicable change in tariff classification, provided that:

   (a) the accessories, spare parts, tools and instructional or other information materials presented with the good are not invoiced separately from the originating good; and

   (b) the quantities and value of the accessories, spare parts, tools and instructional or other information materials presented with the good are customary for that good.

2. Notwithstanding Paragraph 1, if a good is subject to a regional value content requirement, the value of the accessories, spare parts, tools and instructional or other information materials presented with the good shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.

3. Paragraph 2 shall not apply where accessories, spare parts, tools and instructional or other information materials
presented with the good have been added solely for the purpose of artificially raising the regional value content of that good.

**Article 12**

**Indirect Materials**

1. An indirect material shall be treated as an originating material without regard to where it is produced and its value shall be the cost registered in the accounting records of the producer of the good.

2. For the purposes of this Article, indirect material means a good used or consumed in the production, testing or inspection of a good but not physically incorporated into the good, or a good used or consumed in the maintenance of buildings or the operation of equipment associated with the production of a good, including:

   (a) fuel and energy;

   (b) tools, dies and moulds;

   (c) spare parts and materials used in the maintenance of equipment and buildings;

   (d) lubricants, greases, compounding materials, and other materials used in production or used to operate equipment and buildings;

   (e) gloves, glasses, footwear, clothing, safety equipment and supplies;

   (f) equipment, devices, and supplies used for testing or inspecting the goods;

   (g) catalysts and solvents; and
(h) any other goods that are not incorporated into the
good but whose use in the production of the good
can reasonably be demonstrated to be a part of that
production.

Article 13
Identical and Interchangeable Materials

1. In determining whether a good is an originating good,
any identical or interchangeable materials shall be
distinguished by:

(a) physical separation of the goods; or

(b) an inventory management method recognised in the
generally accepted accounting principles of the
exporting Party.

2. Identical or interchangeable materials are goods or
materials which are interchangeable for commercial
purposes, whose properties are essentially identical, and
between which it is impractical to differentiate by a mere
visual examination.

Article 14

determined in accordance with the provisions of Section B as
applicable.

Section B: Operational Procedures

Article 15

**Article 16**

**Treatment of Goods for which Preference is Claimed**

1. Each Party may require a declaration of origin of a good for which preferential tariff treatment is claimed. Where a Party requires a declaration of origin of a good, the importing Party shall grant preferential tariff treatment to goods imported into its Area from the other Party only in cases where an importer claiming preferential tariff treatment:

   (a) provides a declaration of origin of the good in accordance with this Chapter; or

   (b) provides other evidence to substantiate the origin of the goods.

2. With respect to any good falling within Chapter 61 or Chapter 62 of the Harmonized System, New Zealand shall require that a certificate of origin of a good be obtained by the importer for goods imported from the Area of Hong Kong, China where preferential tariff treatment is claimed.
Article 17
Declaration of Origin and Certificate of Origin

(a) a full description of the goods;

(b) the goods' six digit Harmonized System reference;

(c) the rule of origin by which the goods qualify (wholly obtained, produced entirely from originating materials or by product-specific rule including, where applicable, the regional value content);

(d) the producer’s name(s);

(e) the exporter's name(s), address and contact details;

(f) the consignee’s name(s), address and contact details; and

(g) the importer's name(s) in respect of imported goods, if known.

2. The declaration of origin or certificate of origin:

(a) shall be completed in English; and

(b) may be made in respect of one or more goods in the shipment.

3. The certificate of origin shall also:

(a) bear a unique reference number given by the issuer of the certificate of origin; and
(b) contain sufficient details to identify the consignment to which it relates¹.

4. Further operational certification procedures that shall apply to the application for and issuing of a certificate of origin shall be mutually determined between the relevant agencies of the Parties in an exchange of letters. Any subsequent amendments shall be similarly mutually determined in an exchange of letters between the relevant agencies of the Parties.

**Article 18**

**Exceptions from Declaration of Origin**

1. An importing Party may not require a declaration of origin to admit goods pursuant to tariff preference where:

   (a) the customs value of the importation does not exceed US$1,000 or the equivalent amount in the Party’s currency or a higher amount as it may establish; or

   (b) in respect of specific goods, a Party has waived the requirement for a declaration of origin.

2. Where an importation forms part of a series of importations that may reasonably be considered to have been undertaken or arranged for the purpose of avoiding the requirement for a declaration of origin, the customs administration of the importing Party may deny preferential tariff treatment.

1 Examples include the shipping marks, importer’s purchase order number, exporter’s invoice number, or number and types of packages.
Article 19
Records

1. Each Party shall require that, consistent with its domestic law, producers, exporters or importers, as appropriate, maintain for a period specified in its domestic law all records relating to an exportation or importation which are necessary to demonstrate that a good for which a claim for tariff preference was made qualifies for preferential tariff treatment. In addition, Hong Kong, China shall inform producers in its Area that they should maintain for a period of not less than seven years after the date of exportation all records relating to that exportation which are necessary to demonstrate to New Zealand that a good for which a claim for tariff preference was made qualifies for preferential tariff treatment.

2. In addition, with respect to any good falling within Chapter 61 or Chapter 62 of the Harmonized System, Hong Kong, China shall seek a written commitment from the producer of the good that all records relating to that exportation which are necessary to demonstrate that a good for which a claim for tariff preference was made qualifies for preferential tariff treatment shall be maintained for a period of not less than seven years after the date of exportation. Where the producer provides such a written commitment, Hong Kong, China shall ensure that is recorded in the certificate of origin issued in respect of that good, and shall retain that written commitment for a period of not less than seven years.

3. The Trade and Industry Department of Hong Kong, China and each Government Approved Certification Organisation of Hong Kong, China shall maintain copies of certificates of origin and the application details submitted for a period of not less than seven years.
Article 20
Compliance with Direct Consignment

Compliance with Article 9 may be evidenced by means of supplying to the customs authorities of the importing Party either customs documents of a non-Party or documents of the competent authorities of a non-Party, together with commercial shipping or freight documents.

Article 21
Non-Party Invoicing

The customs administration of the importing Party may accept a declaration of origin in cases where the sales invoice is issued either by a company located in a non-Party or by an exporter for the account of that company, provided that the goods meet the requirements of Section A.

Article 22
Verification of Origin

1. For the purposes of determining whether a good imported into its Area from the Area of the other Party qualifies as an originating good, the importing Party may, through its customs administration, conduct a verification of eligibility for preferential tariff treatment by means of:

   (a) requests for information to the importer;

   (b) requests for information to the exporter or producer in the Area of the other Party;

   (c) requests for information to the customs administration of the other Party;

   (d) subject to the consent of the relevant exporter or producer, visits to the premises of an exporter or producer in the Area of the other Party arranged by
and in company with the customs administration of the other Party; or

(e) such other procedures as the customs administrations of the Parties may agree.

2. Any such verification activities shall only be undertaken if:

(a) there are reasonable grounds to doubt the accuracy or authenticity of the declaration of origin, certificate of origin, or the origin status of the goods concerned;

(b) the purpose is to facilitate audit checks by the importing Party on a risk management basis; or

(c) the purpose is to ascertain the fulfilment of any other requirement of this Chapter.

3. Any request that is made to the customs administration of the exporting Party pursuant to Paragraph 1 shall specify the reasons, and any documents and information supporting the request shall be forwarded to the customs administration of the exporting Party.

4. All requests for information shall be accompanied by sufficient information to identify the good about which the request is made.

2. Nothing in this Chapter shall prevent a Party from preparing, adopting or applying, in accordance with its rights and obligations under the *TBT Agreement*, technical regulations which are not more trade restrictive than necessary to fulfil a legitimate objective, taking into account the risks that non-fulfilment would create. Such legitimate objectives are, *inter alia*, national security requirements, the prevention of deceptive practices, the protection of human health or safety, animal or plant life or health, or the environment.

**Article 5**

**International Standards**

1. The Parties shall use relevant international standards, guides or recommendations, or the relevant parts of them, to the extent provided in Articles 2 and 5 and Annex 3 of the *TBT Agreement*, as a basis for their technical regulations and related conformity assessment procedures, except when such international standards, guides or recommendations or their relevant parts would be an ineffective or inappropriate means for the fulfilment of the legitimate objectives pursued.

4. A Party may accredit or otherwise recognise conformity assessment bodies in the Area of the other Party. The terms of accreditation or recognition shall be no less favourable than those it accords to conformity assessment bodies in its Area. If a Party accredits or otherwise recognises a body assessing conformity with a particular technical regulation or standard and that Party refuses to accredit or otherwise recognise a body of the other Party assessing conformity with that technical regulation or standard, it shall, at the request of the other Party, give the reasons for its refusal.

1. The Parties agree to cooperate and coordinate in the area of competition policy by exchanging information on the development of competition policy.

(ii) under the particular procedure or condition of an international agreement relating to the stationing of troops or relating to the joint implementation of a project where that international agreement applies to a Party; or

5 For greater certainty, nothing in this Chapter shall have the effect of obliging either Party to permit the supply of services in relation to government procurement covered by this Chapter in a manner that is inconsistent with that Party’s Schedules to Annexes I and II to Chapter 13 (Trade in Services) and Annex I to Chapter 14 (Movement of Business Persons).
(iii) under the particular procedure or condition of an international organisation, or funded by international grants, loans, or other assistance where the applicable procedure or conditions would be inconsistent with this Chapter;

**Article 4**

**Exceptions to this Chapter**

1. Nothing in this Chapter shall be construed to prevent either Party from taking any action or not disclosing any information which it considers necessary for the protection of its essential security interests relating to the procurement of arms, ammunition or war materials, or to procurement indispensable for national security or for national defence purposes.

2. Subject to the requirement that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between the Parties where the same conditions prevail or a disguised restriction
on trade between the Parties, nothing in this Chapter shall be construed to prevent either Party from adopting or maintaining measures:

(a) necessary to protect public morals, order or safety;

(b) necessary to protect human, animal or plant life or health;

(c) necessary to protect intellectual property; or

(d) relating to goods or services of persons with disabilities, of philanthropic institutions, or of prison labour.

2. With respect to any government procurement measure regarding procurement covered by this Chapter, neither Party shall allow its entities to:

(a) treat a locally established supplier less favourably than another locally established supplier on the basis of the degree of foreign affiliation to, or ownership by a person of, the other Party; or

(b) discriminate against a locally established supplier on the basis that the goods or services offered by
that supplier are goods or services of the other Party.

3. For the purposes of this Chapter, Article XVI(1) of the WTO Agreement on Government Procurement, including its footnote, is incorporated into and made part of this Chapter, mutatis mutandis.

4. This Article shall not apply to measures concerning customs duties and charges of any kind imposed on or in connection with importation, the method of levying such customs duties and charges, other import regulations, or to measures affecting trade in services other than government procurement measures specifically governing procurement covered by this Chapter.

Article 6
Rules of Origin

For procurement covered by this Chapter, each Party shall not apply rules of origin to goods or services imported from or supplied by the other Party that are different from the rules of origin the Party applies at the same time in the normal course of trade to imports or supplies of the same goods or services from the other Party.

Article 7
Non-Disclosure of Information

1. The Parties, their entities and review authorities shall not, except to the extent required by law, disclose confidential information that would prejudice legitimate commercial interests of a particular supplier or that might prejudice fair competition between suppliers without the written authorisation of the supplier that provided the information.

2. Nothing in this Chapter shall be construed as requiring either Party, its entities or review authorities to disclose confidential information the disclosure of which would impede
law enforcement or otherwise be contrary to the public interest.

**Article 8**

**Publication of Information on Procurement**

Each Party shall promptly publish:

(a) its government procurement measures covered by this Chapter; and

(b) any modifications to such government procurement measures, where possible in the same manner as the original publication.

**Article 9**

**Procurement Procedures**

Except as provided for in Article 15, entities shall award contracts by means of open or selective tendering procedures, in the course of which all interested suppliers or, in the case of selective tendering, suppliers invited to do so by an entity may submit a tender.

**Article 10**

**Notice of Intended Procurement**

1. Except as provided for in Article 15, for each procurement covered by this Chapter, entities shall publish in advance a notice of intended procurement inviting interested suppliers to submit a tender or apply to meet conditions for participation in the procurement.

2. The notice of intended procurement shall be published through means that are widely disseminated and afford non-discriminatory access to interested suppliers. Such notices shall remain readily accessible, through a single electronic point of access specified in Annex III, free of charge for the entire period established for tendering.
3. Each notice of intended procurement shall include:

   (a) a description of the intended procurement;

   (b) any conditions that suppliers must fulfil to participate in the procurement;

   (c) the time limits for submission of tenders or applications to participate; and

   (d) contact details for obtaining all relevant documents.

4. Each notice of intended procurement shall be published sufficiently in advance to provide interested suppliers with a reasonable period of time, in light of the nature, circumstances and complexity of the procurement, to obtain the full tender documentation and to prepare and submit responsive tenders by the closing date, or to apply for participation in the procurement where applicable.

5. The Parties agree that entities shall in no case provide less than ten days between the date on which the notice of intended procurement is published and the final date for the submission of tenders or applications to participate.

Article 11
Conditions for Participation

1. Where an entity requires suppliers to register, qualify, or satisfy any other conditions before being permitted to participate in a procurement, each Party shall ensure that a notice is published inviting suppliers to apply for registration or qualification or to demonstrate satisfaction of other conditions for participation.

2. The notice shall be published sufficiently in advance for interested suppliers to prepare and submit responsive
applications and for the entity to evaluate and make its determinations based on such applications.

3. Any conditions for participation in the procurement, including the legal, commercial, technical and financial capacity of suppliers, as well as the verification of qualifications, shall be limited to those which are essential to ensure the supplier’s capability to fulfil the contract in question.

4. The commercial, technical and financial capacity of a supplier shall be judged on the basis of both that supplier’s global business activity and its activity in the Area of the procuring entity, taking due account of the legal relationship between the supply organisations.

5. Entities shall consider for a particular procurement those suppliers of the other Party that request to participate in the procurement and that are not yet registered or qualified, provided there is sufficient time to complete the registration or qualification procedures within the time period allowed for the submission of tenders.

6. Nothing in this Article shall preclude an entity from excluding a supplier from a procurement on grounds such as bankruptcy, liquidation or insolvency, false declarations relating to a procurement, or significant deficiency in the performance of any obligation under a prior contract.

Article 12
Lists of Registered or Qualified Suppliers

1. Entities may establish for continuing use a list of suppliers registered or qualified to participate in procurements.

2. Entities shall publish annually or otherwise make available continuously in electronic form a notice inviting interested suppliers to apply for inclusion on the list.
3. The notice shall include:

(a) a description of the goods and services for which the list may be used; and

(b) the conditions to be satisfied by suppliers for inclusion on the list.

4. Entities shall ensure that suppliers may apply for participation in the list at any time, and that all qualifying suppliers are included within a reasonable period, taking into account the conditions for participation and the need for verification.

5. Where entities require suppliers to qualify for such a list before being permitted to participate in a procurement, and a supplier that has not previously satisfied such requirements or conditions submits an application, the entity shall promptly start the registration or qualification process. The entity shall allow such supplier to participate in the procurement, provided there is sufficient time to complete the registration or procurement procedures within the time period allowed for the submission of tenders.

6. Entities shall notify qualified suppliers of the termination of or their removal from a list and, on request of a supplier, provide the supplier with written reasons for this action within a reasonable time.

Article 13
Technical Specifications

1. Each Party shall ensure that its entities do not prepare, adopt or apply any technical specification with the purpose or the effect of creating unnecessary obstacles to trade between the Parties.

2. Any technical specifications prescribed by an entity shall, where appropriate:
(a) be specified in terms of performance and functional requirements, rather than design or descriptive characteristics; and

(b) be based on international standards, where applicable, or otherwise on national technical regulations, recognised national standards, or building codes.

3. Each Party shall ensure that its entities do not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, design or type, specific origin or producer or supplier, unless there is no sufficiently precise or intelligible way of otherwise describing the procurement requirements and provided that, in such cases, words such as “or equivalent” are included in the tender documentation.

4. Each Party shall ensure that its entities do not seek or accept, in a manner that would have the effect of prejudicing fair competition, advice to be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in that procurement.

Article 14
Tender Documentation

1. Tender documentation provided to suppliers shall contain all information necessary to enable them to prepare and submit responsive tenders, including the essential requirements and evaluation criteria for the award of the procurement contract.

2. Where entities do not offer direct access to the tender documentation by electronic means, entities shall promptly make available the tender documentation at the request of any interested or, as applicable, qualified supplier.
3. Entities shall endeavour to reply promptly to any reasonable request for relevant information or explanation made by a supplier, provided that such information does not give that supplier an advantage over other suppliers. The information or explanation given to a supplier may be provided to all participating suppliers known to the entity, in which case it shall be provided promptly.

4. Where an entity modifies the tender documentation, and that modification could impact on the preparation of tenders, it shall publish or transmit all such modifications in writing:

   (a) to all suppliers who have requested tender documentation at the time the criteria are modified, and in the same manner as the original information was transmitted by the entity; and

   (b) in adequate time to allow such suppliers to modify and resubmit their tenders, as appropriate.

**Article 15**

**Exceptions to Open or Selective Tendering**

1. Provided that the tendering procedure is not used to avoid competition or to protect domestic suppliers, entities may award contracts by means other than open or selective tendering procedures in any of the following circumstances:

   (a) where, in response to a prior notice, invitation to participate, or invitation to tender under open or selective tendering procedures:

      (i) no tenders were submitted;

      (ii) no tenders were submitted that conform to the essential requirements in the tender documentation; or
(iii) no suppliers satisfied the conditions for participation; and

provided that the essential requirements of the procurement as set out in the tender documentation have not been substantially modified;

(b) where, for works of art, or for reasons connected with the protection of exclusive rights, such as patents or copyrights, or where there is an absence of competition for technical reasons, the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute exists;

(c) for additional deliveries by the original supplier which are intended either as replacement parts, extensions or continuing services for or upgrades of existing equipment, software, services or installations, where a change of supplier would compel the entity to procure goods or services not meeting requirements of interchangeability with existing equipment, software, services or installations, or conditions under original supplier warranties;

(d) for goods purchased on a commodity market;

(e) when an entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development. When such contracts have been fulfilled, subsequent procurements of such goods or services shall be subject to this Chapter;

(f) when additional construction services, which were not included in the initial contract but which were within the objectives of the original tender
documentation, have, due to unforeseeable circumstances, become necessary to complete the construction services described therein, provided that the total value of contracts awarded for additional construction services does not exceed 50 percent of the amount of the main contract;

(g) in so far as it is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the entity and beyond its control, the goods or services could not be obtained in time by means of an open or selective tendering procedure;

(h) for purchases made under exceptionally advantageous conditions that only arise in the very short term, including public auction or unusual disposals, such as those resulting from liquidation, bankruptcy or receivership. This subparagraph is not intended to cover routine purchases from regular suppliers;

(i) in the case of a contract awarded to the winner of a design contest provided that the contest has been organised in a manner which is consistent with the principles of this Chapter and that the contest is judged by an independent jury with a view to a design contract being awarded to the winner; or

(j) for new construction services consisting of the repetition of similar construction services which conform to a basic project for which an initial contract was awarded, in accordance with the open or selective tendering procedures set out in this Chapter, and for which the entity has indicated in the notice of intended procurement concerning the initial construction service that procedures other than open or selective tendering procedures might
be used in awarding contracts for such new construction services.

Article 9
Domestic Regulation

1. Each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.

2. Each Party shall maintain or institute as soon as practicable judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected service supplier, for the prompt review of and, where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

3. Where authorisation is required for the supply of a service, the competent authorities of a Party shall:

   (a) in the case of an incomplete application, at the request of the applicant, identify all the additional information that is required to complete the application and provide the opportunity to remedy deficiencies within a reasonable timeframe;

(a) based on objective and transparent criteria, such as competence and the ability to supply the service;

(b) not more burdensome than necessary to ensure the quality of the service;

2. Where a Party recognises, autonomously or by agreement or arrangement, the education or experience obtained, requirements met or licences or certification granted in the Area of a non-Party, nothing in Article 12 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licences or certifications granted in the Area of the other Party.

3. A Party that is a party to an agreement or arrangement of the type referred to in Paragraph 2, whether existing or future, shall afford adequate opportunity for the other Party, upon request, to negotiate its accession to such an agreement or arrangement or to negotiate a comparable one with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education or experience obtained, requirements met, or licences or certifications granted in that other Party’s Area should be recognised.

4. A Party shall not accord recognition in a manner which would constitute a means of discrimination between
countries in the application of its standards or criteria for the authorisation, licensing or certification of service suppliers, or a disguised restriction on trade in services.

5. The Parties agree to facilitate the establishment of dialogue between their regulators and/or relevant industry bodies with a view to the achievement of early outcomes on recognition of qualifications and/or professional registration.

6. Such recognition may be achieved through harmonisation, recognition of regulatory outcomes, recognition of qualifications and professional registration awarded by one Party as a means of complying with the regulatory requirements of the other Party (whether accorded autonomously or by mutual arrangement) or recognition arrangements concluded between the Parties and between industry bodies.

Article 11
Subsidies

that it accords, in like circumstances, to services and service suppliers of a non-Party.

2. Notwithstanding Paragraph 1, the Parties reserve the right to adopt or maintain any measure that accords differential treatment to non-Parties under any free trade agreement or multilateral international agreement in force or signed prior to the date of entry into force of this Agreement.

Article 13
Monopolies and Exclusive Service Suppliers

1. Each Party shall ensure that any monopoly supplier of a service in its Area does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party’s obligations under Articles 4, 5, 6 and 12 except as set out in its Schedules to Annexes I and II.

2. Where a Party’s monopoly supplier of a service competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights, the Party shall ensure that such a supplier does not
abuse its monopoly position to act in its Area in a manner inconsistent with that Party’s obligations under Articles 4, 5, 6 and 12 except as set out in its Schedules to Annexes I and II.

3. If a Party has reason to believe that a monopoly supplier of a service of the other Party is acting in a manner inconsistent with Paragraphs 1 or 2, that Party may request the other Party establishing, maintaining or authorising such supplier to provide specific information concerning the relevant operations.

4. This Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect, (a) authorises or establishes a small number of service suppliers and (b) substantially prevents competition among those suppliers in its Area.

**Article 14**

**Denial of Benefits**

1. Subject to prior notification wherever possible, and in any event subject to notification within ten working days of the decision, a Party may deny the benefits of this Chapter to a service supplier of the other Party where the Party establishes that:

   (b) the service is being supplied by an enterprise that is owned or controlled by persons of the denying Party and the enterprise has no substantive business operations in the Area of the other Party.

2. A Party that denies benefits pursuant to Paragraph 1 shall enter into consultations if requested by the other Party within 30 days following the receipt of the request. Any
consultations conducted pursuant to this Paragraph shall be without prejudice to the rights and obligations of the Parties under Chapter 16 (Dispute Settlement) or under the WTO Dispute Settlement Understanding.

The Dairy Industry Restructuring Act 2001 (“DIRA”) and regulations provide for the New Zealand government to acquire, free of charge, and without condition, a copy of a regulated database held by the Livestock Improvement Corporation Ltd (“LIC”) in the event of its demutualisation or certain other events.

In addition, the DIRA sets out data reporting obligations to the LIC applying to those engaged in herd testing of dairy cattle herds. The DIRA also provides for conditions for access to that data held by LIC.

Pursuant to the DIRA, rules for access to the regulated database provide that applications for access to data may be refused unless they are in the interests of the New Zealand dairy industry.

Investment restrictions also apply in the case of the LIC, which requires the approval of the responsible Minister if it wishes to relax the current statutory restriction requiring shareholders to be dairy farmers who buy services from the LIC.

Headnote

1. Where appropriate, measures are referenced to the Provisional Central Product Classification ("CPC") as set out in Statistical Office of the United Nations Statistical Papers, Series M, No. 77, Provisional Central Product Classification, 1991 ("CPC code") and on the basis of the Services Sectoral Classification List WTO document MTN.GNS/W/120.

2. The Schedule of a Party sets out, pursuant to Paragraph 2 of Article 7 (Application of Articles 4, 5, 6 and 12), the specific sectors, sub-sectors, or activities for which that Party may maintain existing, or adopt new or more restrictive, measures that do not conform with obligations imposed by:

   (a) Article 4 (Market Access);
   (b) Article 5 (National Treatment);
   (c) Article 6 (Local Presence); or
   (d) Article 12 (Most Favoured Nation Treatment).

For greater certainty, Article 4 (Market Access) only refers to non-discriminatory measures.

3. Local Presence and National Treatment are separate disciplines and a measure that is only inconsistent with Local Presence need not be reserved against National Treatment.

4. Each entry in a Party’s Schedule sets out the following elements:

   (a) **Sector** refers to the sector in which the entry is made;

   (b) **Industry Classification** refers, for the purpose of clarity, and where applicable, to the activity covered by the entry according to the CPC code;
(c) **Obligations concerned** specifies the obligation(s) referred to in Paragraph 2;

(d) **Description** sets out the nature and/or scope of the measures in the sectors, sub-sectors or activities covered by the entry; and

(e) **Existing measures** are included for transparency purposes. The measures stipulated therein are not exhaustive.

5. Where the title “cross-border services” is used in the Description element, the entry shall be read to apply to the cross-border mode (Mode 1), the consumption abroad mode (Mode 2), and the presence of natural persons mode (Mode 4) for supply of services.

6. Where the title “investment” is used in the Description element, the entry shall be read to apply only to the commercial presence mode (Mode 3) for supply of services.

7. Any aspects of such an entry which relate to investment in goods only, are retained solely for transparency purposes.

8. In accordance with Paragraph 2 of Article 7 (Application of Articles 4, 5, 6 and 12), the Articles of this Agreement specified in the Obligations concerned element of an entry do not apply to the sectors, sub-sectors, and activities identified in the Description element of that entry.

9. Where an inconsistency arises in relation to the interpretation of an entry, the Description element of the entry shall prevail to the extent of the inconsistency.

2. The Parties recognise the right of each Party to regulate, and to introduce new regulations to support government policy objectives.

4. The disciplines in this Annex apply to measures adopted or maintained by the Parties relating to licensing requirements and procedures, qualification requirements and procedures, and technical standards affecting trade in services.

5. Nothing in this Annex shall apply to any measure adopted or maintained by a Party consistent with its Schedules to Annexes I and II.

6. The Parties shall ensure that measures relating to licensing requirements and procedures, qualification requirements and procedures, and technical standards are not formulated, introduced, implemented, administered or applied with a view to creating unnecessary barriers to trade in services.

7. The Parties shall ensure that measures relating to licensing requirements and procedures, qualification requirements and procedures, and technical standards shall be pre-established, based on objective and transparent
criteria and relevant to the supply of the services to which they apply.

8. Nothing in these disciplines prevents either Party from exercising its right to introduce or maintain regulations in order to ensure provision of universal service, in a manner consistent with its obligations and commitments under this Chapter.

**Transparency**

9. Each Party shall ensure that measures of general application relating to licensing requirements and procedures, qualification requirements and procedures, and technical standards, as well as detailed information regarding these measures, are promptly published through printed or electronic means, or otherwise. Where publication is not practicable, such information shall be made publicly available. This information shall include:

   (a) whether any authorisation, including application and/or renewal where applicable, is required for the supply of a service;

   (b) the official titles, addresses and contact information of relevant competent authorities;

   (c) applicable licensing requirements and criteria, terms and conditions of licences, and licensing procedures and fees;

   (d) applicable qualification requirements, criteria and procedures for verification and assessment of qualifications, including fees;

   (e) applicable technical standards;

   (f) procedures relating to appeals or reviews of applications;
(g) monitoring, compliance or enforcement procedures, including notification procedures for non-compliance;

(h) where applicable, how public involvement in the licensing process, such as hearings and opportunity for comment, is provided for;

(i) exceptions, derogations or changes to measures relating to licensing requirements and procedures, qualification requirements and procedures, and technical standards; and

(j) the normal timeframe for processing of an application.

10. Each Party shall maintain or establish appropriate mechanisms for responding to enquiries from any service suppliers regarding any measures relating to licensing requirements and procedures, qualification requirements and procedures, and technical standards. Such enquiries may be addressed through the contact points established under Article 5 (Contact Points) of Chapter 15 (Transparency).

Licensing Requirements

11. Where residency requirements for licensing exist, each Party shall consider whether less trade restrictive means could be employed to achieve the purposes for which these residency requirements were established.

Licensing Procedures

12. Each Party shall ensure that licensing procedures, including application procedures and, where applicable, renewal procedures, are as simple as possible, are not more burdensome than necessary to ensure that applicants fulfil or
comply with the licensing requirements, and do not in themselves constitute a restriction on the supply of services.

13. Each Party shall ensure that the procedures used by, and the decisions of, the competent authority in the licensing process (“competent authority”) are impartial with respect to all applicants. The competent authority should be operationally independent of and not accountable to any supplier of the services for which the licence is required.

14. An applicant should be required to approach only one competent authority for an application for a licence.

15. An applicant should be permitted to submit an application at any time, except where licences are limited in numbers, including in public tendering. Where specific time periods for applications exist, an applicant shall be allowed a reasonable period for the submission of an application. The competent authority shall initiate the processing of an application without undue delay. Where possible, applications should be accepted in electronic format under the same conditions of authenticity as paper submissions.

16. The competent authority shall, within a reasonable period of time after receipt of an application which it considers incomplete, inform the applicant and, to the extent feasible, identify the additional information required to complete the application, and, where appropriate, provide the opportunity to correct deficiencies.

17. The competent authority shall, where appropriate, accept copies of documents authenticated in accordance with its domestic law in place of original documents.

18. If an application for a licence is rejected by the competent authority, the applicant shall be informed in writing and without undue delay. In principle, the applicant shall, upon request, also be informed of the reasons for rejection of the application and of any rights of review of, or appeal
against, the decision, including the timeframe for review or appeal. An applicant should be permitted, within reasonable time limits, to resubmit an application.

19. Each Party shall ensure that the processing of an application for a licence, including reaching a final decision, is completed within a reasonable timeframe from the submission of a complete application. Each Party shall endeavour to establish the normal timeframe for processing of an application.

20. Each Party shall ensure that a licence, once granted, enters into effect without undue delay in accordance with the terms and conditions specified therein.

21. Each Party shall ensure that any licensing fees are determined with regard to the administrative costs involved. This shall not preclude the recovery of any additional costs of administering licensing requirements and any other administrative activities related to the regulation of the relevant services.

Qualification Requirements

22. Where a Party imposes qualification requirements for the supply of a service, it shall ensure that adequate procedures exist for the verification and assessment of qualifications held by service suppliers of the other Party. In verifying and assessing qualifications, the competent authority shall, where appropriate, give due consideration to relevant professional experience of the applicant as a complement to educational qualifications. Where membership in a relevant professional association in the Area of another Party is indicative of the level of competence

23 Licensing fees do not include payments for auction, tendering or other non-discriminatory means of awarding concessions, or mandated contributions to universal service provision.
or extent of experience of the applicant, such membership shall also be given due consideration.

23. Provided an applicant has presented all necessary supporting evidence of qualifications, the competent authority, in verifying and assessing qualifications, shall, to the extent possible, identify any deficiency and inform the applicant of requirements to meet the deficiency. Such requirements may include course work, examinations, training, and work experience. Where appropriate, each Party shall provide the possibility for applicants to fulfil such requirements in the home, host or any third jurisdiction.

24. Residency requirements, other than those consistent with a Party’s Schedules to Annexes I and II shall not be a pre-requisite for assessing and verifying the competence of a service supplier of the other Party.

25. Each Party shall ensure that a service supplier is informed without undue delay when qualification requirements have been fulfilled.

Qualification Procedures

26. Each Party shall ensure that qualification procedures are as simple as possible, are not more burdensome than necessary to ensure that applicants meet the qualification requirements, and do not in themselves constitute a restriction on the supply of services.

27. An applicant should be required to approach only one competent authority for qualification procedures.

28. An applicant should be permitted to submit an application at any time. The competent authority shall initiate the processing of an application without undue delay.

29. Where examinations are required, each Party shall ensure that they are scheduled at reasonably frequent
intervals. Applicants for examinations shall be allowed a reasonable period to submit applications.

30. The competent authority shall, within a reasonable period of time after receipt of an application which it considers incomplete, inform the applicant and, to the extent feasible, identify the additional information required to complete the application, and, where appropriate, provide the opportunity to correct deficiencies.

31. The competent authority shall, where appropriate, accept copies of documents authenticated in accordance with its domestic law in place of original documents.

32. If an application for verification and assessment of qualification is rejected by the competent authority, the applicant shall be informed in writing and without undue delay. In principle, the applicant shall, upon request, also be informed of the reasons for rejection of the application and of any rights of review of, or appeal against, the decision, including the timeframe for review or appeal. An applicant should be permitted, within reasonable time limits, to resubmit an application.

33. Each Party shall ensure that the processing of an application, including verification and assessment of a qualification, is completed within a reasonable timeframe from the submission of a complete application. Each Party shall endeavour to establish the normal timeframe for processing of an application.

34. Each Party shall ensure that any fees charged for qualification procedures are determined with regard to the administrative costs involved. This shall not preclude the recovery of any additional costs of administering qualification requirements and any other administrative activities related to the regulation of the relevant services.
Technical Standards

35. Each Party shall ensure that technical standards are not prepared or adopted with a view to creating unnecessary obstacles to trade in services. For this purpose, each Party shall ensure that such technical standards are based on objective and transparent criteria and are relevant to meet specific government policy objectives.

36. Each Party shall ensure that any measures relating to the application, monitoring, compliance and enforcement of technical standards are not more burdensome than necessary to ensure that a service conforms with the relevant technical standards, taking into account the risks that non-fulfilment would create.

37. The Parties shall encourage maximum transparency of relevant processes relating to the development and application of domestic and international standards by non-governmental bodies.

38. Where technical standards are required and relevant international standards are applicable or their completion is imminent, the Parties should take them or the relevant parts of them into account in formulating their technical standards, except when such international standards or relevant parts would be an ineffective or inappropriate means for the fulfilment of specific government policy objectives.
ANNEX IV TO CHAPTER 13 (TRADE IN SERVICES)

EDUCATION COOPERATION

Introduction

1. The objectives of this Annex are to:

   (a) strengthen bilateral relations between the Parties in the field of education;

   (b) reflect the importance of education as a factor of social and economic development as well as a means for facilitating a closer economic partnership between the Parties; and

2. In accordance with the domestic laws in force in their Areas, the Parties shall promote mutual cooperation in education.

3. CHAPTER 14

MOVEMENT OF BUSINESS PERSONS

Article 1

Objectives

The objectives of this Chapter are to:

(a) facilitate the movement of business persons of either Party engaged in the conduct of trade and investment between the Parties;

(b) establish streamlined and transparent immigration procedures for applications made by business persons of the other Party; and

(c) provide for rights and obligations additional to those set out in Chapter 13 (Trade in Services) and Chapter 3 (Trade in Goods) in relation to the movement of natural persons between the Parties for business purposes,

while recognising the need to ensure border security and to protect the domestic labour force and employment in the Areas of the Parties.

Article 2

Scope

1. This Chapter shall apply to measures affecting the temporary entry of business persons of one Party into the Area of the other Party, where such persons include:

(a) business visitors;

(b) intra-corporate transferees;

(c) independent service suppliers; and
(d) installers or servicers.

2. This Chapter shall not apply to measures affecting natural persons seeking access to the employment market of the other Party, nor shall it apply to measures regarding citizenship, nationality, residence or employment on a permanent basis.

3. Nothing in this Chapter or Chapter 13 (Trade in Services) shall prevent a Party from applying measures to regulate the entry of natural persons of the other Party into, or their temporary stay in, its Area, including those measures necessary to protect the integrity of, and to ensure the orderly movement of natural persons across, its borders, provided that such measures are not applied in such a manner as to nullify or impair the benefits accruing to the other Party under the terms of this Chapter. The sole fact of a Party requiring an immigration formality in respect of natural persons of the other Party and not those of non-Parties shall not be regarded as nullifying or impairing benefits accruing to the other Party under the terms of this Chapter.

Article 3
Definitions

For the purposes of this Chapter:

(a) **business visitor** means a natural person of a Party who:

(i) is seeking temporary entry to the Area of the other Party for the purpose of:

(1) attending meetings or conferences, or engaging in consultations with business colleagues;
(2) taking orders or negotiating contracts for an enterprise located in the Area of the Party but not selling goods or providing services to the general public; or

(3) undertaking business consultations concerning the establishment, expansion or winding up of an enterprise or investment in the other Party;

(ii) who is not seeking to enter the labour market of the other Party; and

(iii) whose principal place of business, actual place of remuneration and predominant place of accrual of profits remain outside the Area of the other Party;

(b) granting Party means a Party who receives an application for temporary entry from a business person of the other Party who is covered by Paragraph 1 of Article 2;

(c) immigration formality means a visa, permit, pass or other document or electronic authority granting a natural person permission to enter, stay, work or establish commercial presence in the Area of the granting Party;

(d) installer or servicer means a natural person of a Party who is an installer or servicer of machinery and/or equipment, where such installation and/or servicing by the supplying company is a condition of purchase of the said machinery or equipment. An installer or servicer cannot perform services which are not related to the service activity which is the subject of the contract;
(e) **intra-corporate transferees** means a senior manager or a specialist who is an employee of a service supplier or investor of a Party with a commercial presence in the Area of the other Party;

(f) **natural person** means a natural person as defined in Article 3 (Definitions) of Chapter 13 (Trade in Services);

(g) **senior manager** means a natural person of a Party within an organisation of a Party who:

   (i) is a senior employee of that organisation with responsibility for the entire organisation’s operations, or a substantial part of it, in the Area of the other Party;

   (ii) has proprietary information of the organisation and receives only general supervision or direction from higher level executives or the board of directors or stockholders of the organisation; and

   (iii) supervises and controls the work of other supervisory, professional or managerial employees. This does not include a first-line supervisor unless the employees supervised are professionals, nor does this include an employee who primarily performs tasks necessary for the provision of the service or operation of an investment;

(h) **specialist** means a natural person of a Party within an organisation of a Party who:

   (i) possesses knowledge at an advanced level of technical expertise;
(ii) possesses proprietary knowledge of the organisation’s service, research equipment, techniques or management; and

(iii) is essential to the operation of the concerned service supplier’s or investor’s establishment in the Area of the other Party; and

(i) temporary entry means entry by a business person covered by this Chapter, without the intent to establish permanent residence.

Article 4
Grant of Temporary Entry

1. The Parties shall make commitments in respect of the temporary entry of business persons covered by Article 2. Each Party shall set out in Annex I a Schedule containing such commitments. These Schedules shall specify the conditions and limitations for entry and temporary stay, including the requirements and length of stay, for each category of business persons included in each Party’s Schedule of commitments.

2. Where a Party makes a commitment under Paragraph 1, that Party shall grant temporary entry or extension of temporary stay to the extent provided for in that commitment, provided that those business persons:

   (a) follow prescribed application procedures for the immigration formality sought; and

   (b) meet all relevant eligibility requirements for entry to the granting Party.

3. Temporary entry granted to a business person pursuant to this Chapter does not exempt that person from the requirements needed to carry out a profession or activity according to the domestic law, and any applicable mandatory
codes of practice made pursuant to the domestic law, in force in the Area of the Party authorising the temporary entry.

4. Any fees imposed in respect of the processing of an immigration formality shall be reasonable and in accordance with domestic law.

5. Neither Party may, except as provided for in its Schedule of commitments set out in Annex I, impose or maintain any numerical restriction relating to temporary entry as a condition for entry under Paragraph 1.

Article 5
Expeditious Application Procedures

1. Where an application for an immigration formality is required by a Party, the Party shall process expeditiously completed applications for immigration formalities or extensions thereof received from business persons of the other Party covered by Paragraph 1 of Article 2.

2. A Party shall, within ten working days of receipt of an application for temporary entry that has been completed and submitted in accordance with its domestic law, either:

   (a) make a decision on the application and inform the applicant of the decision including, if approved, the period of stay and other conditions; or

   (b) if a decision cannot be made in that time period, inform the applicant when a decision will be made.

3. At the request of an applicant, a Party in receipt of a completed application for temporary entry shall provide, without undue delay, information concerning the status of the application.
**Article 6**
**Transparency**

Each Party shall:

(a) publish, such as on the website of its immigration authority, the requirements for temporary entry under this Chapter, including explanatory material and relevant forms and documents that will enable business persons of the other Party to become acquainted with the Party’s requirements; and

(b) upon modifying or amending the requirements for temporary entry referred to in subparagraph (a) that affect the temporary entry of business persons, ensure that the information published pursuant to subparagraph (a) is updated by the date that modification or amendment comes into effect.

**Article 7**
**Dispute Settlement**

1. Any differences or disputes arising out of the implementation of this Chapter shall be settled amicably through consultations or negotiations between the Parties.

2. Neither Party shall have recourse to Chapter 16 (Dispute Settlement) regarding a refusal to grant temporary entry under this Chapter unless:

(a) the matter involves a pattern of practice; and

(b) the business person has exhausted all available administrative remedies regarding the particular matter.
Article 8
Contact Points

1. Each Party shall designate a contact point to facilitate communication and the effective implementation of this Chapter, and respond to inquiries from the other Party regarding regulations affecting the movement of business persons between the Parties or any matters covered in this Chapter, and shall provide details of this contact point to the other Party.

2. The Parties shall notify each other promptly of any amendments to the details of their contact points.

The complaining Party shall deliver the request to the other Party.
3. If a request for consultations is made, the Party to which the request is made shall reply to the request in writing within seven days after the date of its receipt and shall enter into consultations in good faith, with a view to reaching a mutually satisfactory solution within a period of no more than:

   (a) 15 days after the date of receipt of the request for urgent matters, including those concerning perishable goods; or

4. The Parties shall make every effort to reach a mutually satisfactory resolution of any matter through consultations. In conducting the consultations, the Parties shall:

   (b) treat any information exchanged in the course of consultation which is designated by a Party as confidential or proprietary in nature on the same basis as the Party providing the information.

5. If the responding Party does not reply within the required seven days, or does not enter into consultations within the timeframes specified in Paragraph 3(a) or (b), or a period otherwise mutually agreed by the Parties, the complaining Party may proceed directly to request the establishment of an arbitral tribunal under Article 6.

6. The consultations shall be confidential, and without prejudice to the rights of either Party in any further proceedings.
7. The complaining Party may request the responding Party to make available for the consultations personnel from its government agencies or other regulatory bodies who have expertise in the matter under consultation.

**Article 5**

1. The Parties may at any time agree to good offices, conciliation or mediation. They may begin at any time and be terminated at any time.

2. Proceedings involving good offices, conciliation and mediation, and in particular positions taken by the Parties during those proceedings, shall be confidential and without prejudice to the rights of either Party in any further proceedings.

**Article 6**

**Establishment of an Arbitral Tribunal**

1. The complaining Party may request, by means of a written notification addressed to the other Party, the establishment of an arbitral tribunal if:

   (a) the consultations fail to settle a dispute within:

      (i) 30 days after the date of receipt of the request for consultations regarding urgent matters, including those concerning perishable goods; or

      (ii) 60 days after the date of receipt of the request for consultations regarding all other matters; or

   (b) Paragraph 5 of Article 4 applies.

2. The Parties may agree during the consultations to vary the periods set out in Paragraph 1(a).
3. The request to establish an arbitral tribunal shall identify:

(a) the specific measures at issue;

(b) the legal basis of the complaint sufficient to present the problem clearly including, where applicable:

(i) any provisions of this Agreement alleged to have been breached;

(ii) whether there is a claim for nullification and impairment; and

(iii) any other relevant provisions; and

4. Unless otherwise agreed by the Parties, the arbitral tribunal shall be established and perform its functions in a manner consistent with this Chapter.

Article 7
Composition of Arbitral Tribunals

1. The arbitral tribunal shall consist of three members.

2. Each Party shall appoint an arbitrator within 21 days of the receipt of the request to establish an arbitral tribunal.

3. The Parties shall appoint by common agreement the third arbitrator within 30 days of the receipt of the request to establish an arbitral tribunal. The arbitrator thus appointed shall chair the arbitral tribunal.

4. The chair shall be a national of a non-Party who shall not have his or her usual place of residence in the Area of either of the Parties.
5. If all three members of the arbitral tribunal have not been appointed within 30 days of receipt of the request to establish an arbitral tribunal, the Director-General of the WTO shall, at the request of either Party, make the necessary appointments within 30 days of the request to the Director-General of the WTO.

7. The date of establishment of the arbitral tribunal shall be the date on which the last arbitrator is appointed.

8. If an arbitrator appointed under this Article resigns or becomes unable to act, a successor arbitrator shall be appointed, within 21 days from the date written notice is received by the Parties of the need for a successor, in the same manner as prescribed for the appointment of the original arbitrator and the successor shall have all the powers and duties of the original arbitrator. The work of the arbitral tribunal shall be suspended pending the appointment of the successor arbitrator.
9. Where an arbitral tribunal is established under Articles 12, 13 or 15, it shall, where possible, have the same arbitrators as the original arbitral tribunal. Where this is not possible, any replacement arbitrator shall be appointed in the same manner as prescribed for the appointment of the original arbitrator and shall have all the powers and duties of the original arbitrator. Where special circumstances warrant, the arbitral tribunal may comprise only the chair of the original arbitral tribunal if the Parties so agree.

Article 8
Functions of Arbitral Tribunals

1. The function of an arbitral tribunal is to make an objective assessment of the dispute before it, including an objective assessment of the facts of the case and the applicability of and conformity with this Agreement, and make such other findings and rulings necessary for the resolution of the dispute referred to it as it thinks fit.

2. The arbitral tribunal shall, apart from the matters set out in Article 9, make decisions in order to regulate its own procedures in relation to the rights of the Parties to be heard and its deliberations, in consultation with the Parties.

3. The arbitral tribunal shall make its decisions to which Paragraph 2 applies and its findings and rulings by consensus, provided that where an arbitral tribunal is unable to reach consensus these may be made by majority vote. The arbitral tribunal shall not disclose which arbitrators are associated with majority or minority opinions.

4. The findings and rulings of the arbitral tribunal cannot add to or diminish the rights and obligations provided in this Agreement.
Article 9
Proceedings of Arbitral Tribunals

1. The arbitral tribunal proceedings shall be conducted in accordance with this Chapter and, unless the Parties agree otherwise, the Model Rules of Procedure for Arbitral Tribunals in Annex I.

2. Unless the Parties otherwise agree within 20 days from the date of receipt of the request for the establishment of the arbitral tribunal, the terms of reference shall be:

“To examine, in the light of the relevant provisions of this Agreement, the matter referred to in the request for the establishment of an arbitral tribunal pursuant to Article 6 and to make findings and rulings of law and fact together with the reasons therefore for the resolution of the dispute.”

3. At the request of either Party or on its own initiative, the arbitral tribunal may seek information and technical advice from any individual or body which it deems appropriate. Any information or technical advice so obtained shall be submitted to the Parties for comment. Where the arbitral tribunal takes the information or technical advice into account in the preparation of its report, it shall also take into account any comments by the Parties on the information or technical advice.

Article 10
Termination of Proceedings

1. The Parties may agree to terminate the proceedings of an arbitral tribunal in the event that a mutually satisfactory solution to the dispute has been found. In such event the Parties shall jointly notify the chair of the arbitral tribunal.

2. The Parties may agree that the arbitral tribunal suspend its work at any time for a period not exceeding 12 months
from the date of such agreement. In such event the Parties shall jointly notify the chair of the arbitral tribunal. If the work of the arbitral tribunal has been suspended for more than 12 months, the authority for establishment of the arbitral tribunal shall lapse unless the Parties agree otherwise.

**Article 11**

**Reports of the Arbitral Tribunal**

1. The reports of the arbitral tribunal shall be drafted without the presence of the Parties and shall be based on the relevant provisions of this Agreement, the submissions and arguments of the Parties and any other information provided to the arbitral tribunal pursuant to Paragraph 3 of Article 9.

2. The arbitral tribunal shall present its initial report to the Parties within 90 days of the date of establishment of the arbitral tribunal or in cases of urgency, including those concerning perishable goods, within 60 days of the date of establishment of the arbitral tribunal. The initial report shall contain:

   (a) findings of fact; and

   (b) the determination of the arbitral tribunal as to whether a Party has not conformed with its obligations under this Agreement or that a Party’s measure is causing nullification or impairment in the sense of Paragraph 1(c) of Article 2 and any other determination requested in the terms of reference or required to perform its functions under Article 8.

3. In exceptional cases, if the arbitral tribunal considers it cannot present its initial report within 90 days, or within 60 days in cases of urgency, it shall inform the Parties in writing of the reasons for the delay together with an estimate of the period within which it will present its report. Any delay shall not exceed a further period of 30 days unless the Parties otherwise agree.
4. A Party may submit written comments on the initial report to the arbitral tribunal within ten days of receiving the initial report or within such other period as the Parties may agree.

5. After considering any written comments by the Parties and making any further examination it considers necessary, the arbitral tribunal shall present its final report to the Parties within 30 days of presentation of the initial report, unless the Parties otherwise agree.

6. If in its final report, the arbitral tribunal finds that a Party’s measure does not conform with this Agreement or is causing nullification or impairment in the sense of Paragraph 1(c) of Article 2, it shall include in its findings and rulings a requirement to remove the non-conformity or address the nullification or impairment.

7. The Parties shall release the final report of the arbitral tribunal as a public document within 15 days from the date of its presentation to the Parties, subject to the protection of confidential information.

**Article 12**

**Implementation**

1. The findings and rulings of the arbitral tribunal shall be final and binding on the Parties.

2. The Parties shall promptly comply with the findings and rulings of the arbitral tribunal. Where it is not practicable to comply immediately, the Party concerned shall comply with the findings and rulings within a reasonable period of time. The reasonable period of time shall be mutually determined by the Parties. As a guideline, the reasonable period of time should not exceed 12 months from the date of the presentation of the arbitral tribunal's final report to the Parties. Where the Parties fail to agree on the reasonable period of
time within 45 days of the presentation to the Parties of the arbitral tribunal’s final report, either Party may refer the matter, in accordance with Paragraph 9 of Article 7, to the original arbitral tribunal, which shall determine the reasonable period of time following consultation with the Parties.

3. The arbitral tribunal shall present its report to the Parties within 60 days of the date on which the arbitral tribunal is established, in accordance with Paragraph 7 of Article 7, to consider the matter referred to in Paragraph 2. The report shall contain the determination of the arbitral tribunal as to the reasonable period of time and the reasons for its determination. When the arbitral tribunal considers that it cannot present its report within this timeframe, it shall inform the Parties in writing of the reasons for the delay together with an estimate of the period within which it will present its report. Any delay shall not exceed a further period of 30 days unless the Parties otherwise agree.

**Article 13**

**Compliance within Reasonable Period of Time**

1. Where there is disagreement as to the existence or consistency with this Agreement of measures taken within a reasonable period of time to comply with the findings and rulings of the arbitral tribunal, such disagreement shall be decided through recourse to the dispute settlement procedures in this Chapter, including wherever possible by resort to the original arbitral tribunal, in accordance with Paragraph 9 of Article 7.

2. The arbitral tribunal shall present its report to the Parties within 90 days of the date on which the arbitral tribunal is established to consider the dispute on compliance within a reasonable period of time referred to in Paragraph 1. When the arbitral tribunal considers that it cannot present its report within this timeframe, it shall inform the Parties in writing of the reasons for the delay together with an estimate of the
period within which it will present its report. Any delay shall not exceed a further period of 30 days unless the Parties otherwise agree.

### Article 14

**Compensation and Suspension of Benefits**

1. If a failure to comply with the findings and rulings of the arbitral tribunal has been established in accordance with Paragraph 1 of Article 13 or the responding Party notifies the other Party in writing that it does not intend to comply with the findings and rulings, the responding Party shall, if so requested, enter into negotiations with the complaining Party within ten days of the receipt of such request with a view to reaching a mutually satisfactory agreement on any necessary compensatory adjustment.

2. If no mutually satisfactory agreement on compensatory adjustment as set out in Paragraph 1 is reached within 20 days of entering into negotiations, the complaining Party may at any time thereafter notify the responding Party that it intends to suspend the application to the responding Party of benefits of equivalent effect and shall have the right to begin suspending those benefits 30 days after the receipt of the notification. Benefits shall not be suspended while the complaining Party is pursuing negotiations under Paragraph 1.

3. Compensation and the suspension of benefits shall be temporary measures. Neither compensation nor the suspension of benefits is preferred to full compliance with the findings and rulings of the arbitral tribunal. Compensation and suspension of benefits shall only be applied until such time as the measure found to be not in conformity with this Agreement has been brought into conformity, or the responding Party has complied with the arbitral tribunal's findings and rulings, or a mutually satisfactory solution is reached.
4. In considering what benefits to suspend pursuant to Paragraph 2:

   (a) the complaining Party shall first seek to suspend benefits in the same sector or sectors as that affected by the measure or other matter that the arbitral tribunal has found to be not in conformity with this Agreement or to have caused nullification or impairment; and

   (b) the complaining Party may suspend benefits in other sectors if it considers that it is not practicable or effective to suspend benefits in the same sector or sectors. The communication in which it announces such a decision shall indicate the reasons on which it is based.

5. Any suspension of benefits shall be restricted to benefits accruing to the other Party under this Agreement.

   **Article 15**
   **Review**

1. Where the right to suspend benefits has been exercised under Article 14, upon written request of the responding Party, the arbitral tribunal shall decide whether:

   (a) the level of benefits suspended by the complaining Party is not of equivalent effect pursuant to Article 14; or

   (b) the responding Party has complied with the findings and rulings of the original arbitral tribunal.

2. Such matters shall be decided through recourse to the dispute settlement procedures in this Chapter, including wherever possible by resort to the original arbitral tribunal, in accordance with Paragraph 9 of Article 7.
3. The arbitral tribunal shall present its report to the Parties within 90 days of the date on which the arbitral tribunal is established to consider the matters referred to in Paragraph 1. When the arbitral tribunal considers that it cannot present its report within this timeframe, it shall inform the Parties in writing of the reasons for the delay together with an estimate of the period within which it will present its report. Any delay shall not exceed a further period of 30 days unless the Parties otherwise agree.

4. If the arbitral tribunal finds that the level of benefits suspended by the complaining Party is not of equivalent effect, the complaining Party shall modify the level of benefits suspended accordingly. If the arbitral tribunal finds that the responding Party has complied with the findings and rulings, the complaining Party shall promptly stop the suspension of benefits under Article 14.

Article 16
Expenses

Unless the arbitral tribunal decides otherwise because of the particular circumstances of the case, each Party shall bear the cost of its appointed arbitrator and its own expenses. The cost of the chair of the arbitral tribunal and other expenses associated with the conduct of its proceedings shall be borne by the Parties in equal shares.
ANNEX I TO CHAPTER 16 (DISPUTE SETTLEMENT)

MODEL RULES OF PROCEDURE FOR ARBITRAL TRIBUNALS

1. These rules shall be read consistently with Chapter 16 (Dispute Settlement).

Notifications

2. Any written submission, request, notice or other document shall be delivered by a Party or the arbitral tribunal by delivery against receipt, registered post, courier, facsimile or electronic transmission or any other means of telecommunication that provides a record of the sending thereof.

3. Each Party shall provide to the other Party and to each of the arbitrators a copy of all of its written communications, including any written submission, request, notice, or other document. A copy of the written communication shall also be provided in electronic format.

4. All notifications shall be made and delivered to each Party.

5. Minor errors of a clerical nature in any written submission, request, notice or other document related to the arbitral tribunal proceedings may be corrected by delivery of a new document clearly indicating the changes.

6. If the last day for delivery of a document falls on a legal holiday of a Party, the document may be delivered on the next business day.

Commencing the Arbitration

7. Unless the Parties otherwise agree, they shall meet with the arbitral tribunal within seven days following the
establishment of the arbitral tribunal in order to determine such matters that the Parties or the arbitral tribunal deem appropriate, including the remuneration and expenses that shall be paid to the chair of the arbitral tribunal, which normally shall conform to the WTO standards. Unless otherwise agreed by the Parties, this meeting shall not be required to be in person and can be conducted by any means, including video-conference, teleconference or computer links.

**Timetable**

8. After consulting the Parties, an arbitral tribunal shall, as soon as practicable and whenever possible within 15 days after the establishment of the arbitral tribunal, fix the timetable for the arbitral tribunal process.

9. In determining the timetable for the arbitral tribunal process, the arbitral tribunal shall provide sufficient time for the Parties to prepare their respective submissions. The arbitral tribunal shall set precise deadlines for written submissions by the Parties and they shall respect those deadlines. In their written submissions, the Parties shall set out the facts of the case and their arguments.

10. Unless otherwise agreed by the Parties, an arbitral tribunal may, in consultation with the Parties, modify any time period established pursuant to these rules and make such other procedural or administrative adjustments as may be required in the arbitral tribunal proceedings. Prior to the consultation with the Parties, the arbitral tribunal shall inform the Parties of the reasons for the modification or adjustment with an indication of the period or adjustment needed.
