I. INTRODUCTION

1. The Government of the United Kingdom of Great Britain and Northern Ireland (United Kingdom) applied for accession to the Comprehensive and Progressive Agreement for Trans-Pacific Partnership (hereinafter referred to as “the CPTPP”) on February 1, 2021. Upon the request, pursuant to Article 5 (Accession) of the CPTPP, and Article 27.2 (Functions of the Commission), Article 27.3 (Decision-Making) and Article 27.4 (Rules of Procedure of the Commission) of the Trans-Pacific Partnership Agreement (hereinafter referred to as “the TPP) as incorporated into the CPTPP, and the Accession Process in the Annex to the Decision of January 19, 2019 CPTPP/COM/2019/D002 (hereinafter referred to as “Accession Process”) adopted by the CPTPP Commission (hereinafter referred to as “the Commission”), the Commission decided to commence the accession process and to establish a working group to negotiate the accession of the United Kingdom (hereinafter referred to as “the Accession Working Group”) at the Fourth Commission Meeting on June 2, 2021.

2. For the decision of commencing the accession process, the CPTPP members took note of the United Kingdom’s history as a supporter of the rules-based trading system, its experience with high-standard trade and investment rules, and the United Kingdom’s affirmation of its intention to comply with all of the existing rules contained in the CPTPP and deliver the highest standards of market access offers. At the time of the application, the United Kingdom expressed its willingness to join the CPTPP, stating that it shares the CPTPP’s commitment to free trade and welcomed the high standards of the agreement. The United Kingdom also showed its confidence that its membership would send a powerful signal of the importance placed on free trade by the CPTPP. The CPTPP members shared the view that the commencement of an accession process with the United Kingdom and the potential expansion of the CPTPP would send a strong signal to their trading partners around the world, of their commitment to support a free, fair, open, effective, inclusive and rules-based trading system.

3. Pursuant to the process determined in the Commission decision at the Fourth Commission Meeting, the AWG conducted negotiations on the United Kingdom’s accession to the CPTPP. Japan served as the Chair of the AWG and Australia and Singapore as Vice-Chairs. The first meeting of the AWG was convened on September 28 and 29, 2021 in order to examine the means by which the United Kingdom will comply with the existing rules contained in the CPTPP. The first meeting was concluded on February 18, 2022 by consensus of the CPTPP Parties. Following the first meeting, the CPTPP members and the United Kingdom had a series of meetings to negotiate market access offers while continuing the discussion on the remaining issues regarding the United Kingdom’s compliance with the CPTPP obligations. The CPTPP members and the United Kingdom reached a substantial conclusion of the negotiation on March 31, 2023 and the AWG agreed on the terms and conditions for the United Kingdom’s accession to the CPTPP by consensus on July 14, 2023.

II. OVERVIEW OF NEGOTIATIONS

1. Rules compliance of the CPTPP

After the preparatory exchange of information to accumulate base knowledge as to how the United Kingdom would comply with the rules of the CPTPP, the AWG convened a Chief Negotiator level meeting on September 28 and 29, 2021 and established 23 expert groups to facilitate technical discussions with the United Kingdom regarding its compliance with CPTPP obligations. From October 2021, the expert groups rigorously examined the United Kingdom's ability to comply, including the United Kingdom's commitment to make any necessary changes to its domestic laws and regulations. On February 18, 2022, the AWG held a Chief Negotiator level meeting and it confirmed that it was satisfied that, in principle, the United Kingdom had provided sufficient information indicating that it could comply with most of the obligations in the CPTPP. However, at that stage, the expert groups also found that there were some areas in which the United Kingdom had not yet provided sufficient information for clarification on some issues. Therefore, the AWG decided to continue further discussion to resolve the remaining issues, concurrently with the market access negotiation. On March 29, 2023, the AWG held a Chief Negotiator level meeting and confirmed the means by which the United Kingdom will comply with all of the existing rules contained in the CPTPP. On March 31, 2023, Ministers and representatives of the AWG members and the United Kingdom held a virtual ministerial meeting and confirmed this result.

The expert groups were formed to cover the following chapters.

- Chapter 1, 27 and 29 (Initial Provisions and General Definitions / Administrative and Institutional Provisions / Exceptions and General Provisions)

2. Market Access / Non-Conforming Measures

On February 18, 2022, the AWG held a Chief Negotiator level meeting and it confirmed that, in principle, the United Kingdom provided information indicating that it could comply with most of the obligations in the CPTPP. Thus, pursuant to paragraph 3.4 of the Accession Process, the AWG decided to request the United Kingdom to submit its market access offers / Non-Conforming Measures (NCMs) on goods, investment, cross-border trade in services, financial services, temporary entry for business persons, government procurement and state-owned enterprises in accordance with the timeline referred to in paragraph 3.4 of the Accession Process.

The AWG additionally established six expert groups to negotiate the market access between the United Kingdom and the CPTPP members. In accordance with paragraph 3.4 of the Accession Process, on March 3 and 18, 2022, the United Kingdom submitted to the Parties its initial offers / NCMs on goods, investment, cross-border trade in services, financial services, temporary entry for business persons, government procurement, and state-owned enterprises. The expert groups conducted a series of negotiations on each area in respective groups and bilaterally. In the course of negotiations, the United Kingdom submitted several revised offers and on March 29, 2023, the AWG held a Chief Negotiator level meeting. The Parties confirmed that the offers of the United Kingdom were considered to be in line with the Benchmark specified in the Accession Process, having provided commercially meaningful market access offers of the highest standard on goods, services, investment, financial services, government procurement, state-owned enterprises and temporary entry for business persons. Then, the Parties confirmed or submitted respectively their market access commitments to the United Kingdom. On March 31, 2023, Ministers and representatives of the AWG members and the United Kingdom held a virtual ministerial meeting and confirmed this result.

The expert groups were additionally formed to cover the following areas.

- Goods
- Investment and Cross-Border Trade in Services

- Financial Services
- Government Procurement
- State-Owned Enterprises
- Temporary Entry for Business Persons

3. Legal and Institutional Issues

The Legal and Institutional Expert Working Group was established to facilitate technical discussions with the United Kingdom. This Expert Working Group examined legal and institutional issues of a horizontal nature, and negotiated with the United Kingdom to find mutually acceptable outcomes on issues including the Windsor Framework and provisions relating to the definition of “territory” and the geographical scope of application of the CPTPP. Substantive issues were largely concluded during the Phu Quoc Round in early March 2023. The following reflects some specific outcomes on the substantive cross-cutting issues under this Working Group’s mandate:

- (a) Windsor Framework: In order to appropriately address the *1998 Belfast (Good Friday) Agreement* and the objectives of the *Windsor Framework*¹ to avoid a hard border between mainland Ireland and Northern Ireland, a provision relevant to Chapter 29 of the CPTPP on Exceptions and General Provisions was inserted in the *Protocol on the Accession of the United Kingdom of Great Britain and Northern Ireland to the Comprehensive and Progressive Agreement for Trans-Pacific Partnership* (hereinafter referred to as “Accession Protocol”). The provision also ensures that a balance of rights and obligations is maintained by the Parties.
- (b) Definition of “Territory” and Geographical Scope of Application of the CPTPP: The United Kingdom Government has responsibility for the international relations of the Crown Dependencies (“CDs”) and Overseas Territories (“OTs”)². In the context of its accession the United Kingdom sought differentiated coverage for the CDs in order to achieve the smooth functioning of the UK-CD customs arrangements. Relevant provisions setting out coverage for territories, for whose international relations the

¹ Windsor Framework means the *Protocol on Ireland/Northern Ireland to the Agreement on the Withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community*, done at London and Brussels on 24 January 2020, as amended by *Decision No 1/2023 of the Joint Committee established by the Agreement on the Withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community of 24 March 2023*.

² CDs and OTs: Bailiwick of Guernsey, Bailiwick of Jersey, Isle of Man, Anguilla, Bermuda, British Antarctic Territory, British Indian Ocean Territory, British Virgin Islands, Cayman Islands, Falkland Islands, Gibraltar, Montserrat, Pitcairn Island, Henderson Island, Ducie Island, Oeno Island, Saint Helena, Ascension Island, Tristan da Cunha, South Georgia and the South Sandwich Islands, Sovereign Base Areas of Akrotiri and Dhekelia, Turks and Caicos Islands.

United Kingdom is responsible, including goods coverage for the CDs, were included.

The Legal and Institutional Expert Working Group was also tasked with preparing and finalising the relevant instruments for the United Kingdom's accession to the CPTPP, i.e. the Decision by the Commission of the Comprehensive and Progressive Agreement for Trans-Pacific Partnership regarding the Accession of the United Kingdom of Great Britain and Northern Ireland to the Comprehensive and Progressive Agreement for Trans-Pacific Partnership (hereinafter referred to as "Commission Decision"), as well as the Accession Protocol.

III. DISCUSSION OF EACH WORKING GROUP

Chapter 2 (National Treatment and Market Access for Goods)

The CPTPP members reviewed the United Kingdom's compliance with the rules stipulated in Chapter 2 since July 23, 2021, upon the United Kingdom's response to questions from the CPTPP members. Thereafter, the CPTPP members held several video conferences and rounds of written questions-and-answers with the United Kingdom. Following several rounds of written questions-and-answers communications between the CPTPP members and the United Kingdom, the working group completed its work on rule compliance on March 31, 2023.

An expert working group was also convened by the AWG to commence market access negotiations on goods between the United Kingdom and CPTPP members. In accordance with paragraph 3.4 of the Accession Process, the United Kingdom submitted their initial offer on goods to CPTPP members on March 18, 2022. Since then, the expert group undertook an iterative process whereby the United Kingdom submitted several rounds of incremental offers until the expert group was satisfied the United Kingdom offer was in line with the benchmark. At that point, Parties provided their market access offers to the United Kingdom and bilateral negotiations formally commenced. The expert group assessed the United Kingdom's offer to be of sufficient quality only when all Parties were satisfied with the outcomes of their bilateral market access negotiations.

As part of the negotiations, CPTPP members and the United Kingdom also deliberated on the following key issues:

- A) Access to Tariff Rate Quotas (TRQs). The CPTPP members held extensive discussions on how existing CPTPP TRQs should be considered in the context of the United Kingdom's accession and future accessions.

- B) Timing of tariff treatment to be provided by Parties to the United Kingdom. Parties and the United Kingdom discussed how their existing tariff commitments could be extended to the United Kingdom should the United Kingdom's offer justify such treatment, including in relation to the timing of tariff elimination. Parties further confirmed with the United Kingdom that it is essential for acceding Parties to meet the Agreement's benchmark for goods market access ambition in this context. Parties conducted bilateral consultation with the United Kingdom on this and as a result, the United Kingdom provided a goods market access offer with sufficiently ambitious tariff concessions so that each Party agreed with the United Kingdom individually to extend their existing CPTPP tariff commitments to the United Kingdom with all tariff cuts taken to date, with limited exceptions. As the CPTPP is further implemented moving forward, Parties noted that future accession processes will require unique considerations in this regard.

- C) Number of tariff differential lines. CPTPP members were concerned with the United Kingdom's extensive number of tariff differential lines as they were significantly more than what CPTPP members had under the CPTPP. However, taking into account the various factors, including the overall level of the United Kingdom's market access offer, the CPTPP members were ultimately able to accept this outcome.
- D) The United Kingdom's Concerns Related to Tariff Differentials. CPTPP members and the United Kingdom discussed the United Kingdom's concerns related to trade circumvention, given the presence of tariff differentials in its tariff commitments. The risk of trade circumvention due to tariff differentials was assessed to be low given no evidence of this occurring under the Agreement to date and CPTPP members noted that there are existing mechanisms under the CPTPP that could address such matter. As a result, the CPTPP members and the United Kingdom agreed to record the following:

1. The Parties reaffirm their shared commitment to strengthen regional value chains and enhance regional economic integration. Should the United Kingdom have concerns related to tariff differentials that may adversely affect their interests in trade in goods under this Agreement, the Parties reaffirm that the United Kingdom may raise these concerns through the ad hoc discussions mechanism described in Article 2.9. In the event that concerns are raised under this mechanism, the requirements on Parties set out in Article 2.9 will apply, including timelines for responses on the Requested Party.
2. The United Kingdom may also make use of other existing institutional forums under this Agreement (e.g. Committee on Trade in Goods, Committee on Rules of Origin) to seek discussion of these issues in a timely manner.
3. The concerned Parties should endeavour to resolve the matter in a timely and mutually acceptable manner.

On March 14, 2023, the United Kingdom provided its final goods market access offer to Parties which was deemed to meet the expected benchmarks of ambition. As a result, the negotiations on Chapter 2 were concluded, and the expert working group recommended to the Chief Negotiators that the United Kingdom's goods offer was considered to have met the Benchmark specified in the Accession Process.

Chapter 3 and 4 (Rules of Origin and Origin Procedures / Textile and Apparel Goods)

The CPTPP members reviewed the United Kingdom's ability to comply with the rules and to apply the procedures stipulated in Chapter 3 and Chapter 4 through

several rounds of written questions-and-answers communications between the CPTPP members and the United Kingdom since July 23, 2021, upon the United Kingdom's responses to questions from the CPTPP members. Following these communications, the working group completed its work on February 18, 2022.

Chapter 5 (Customs Administration and Trade Facilitation)

The CPTPP members reviewed the United Kingdom's ability to comply with the rules stipulated in Chapter 5. The CPTPP members asked several rounds of questions and raised one point of clarification to the United Kingdom. As a result of these questions and clarification, the working group completed its work on February 18, 2022. Also, while CPTPP Members expressed general satisfaction with the United Kingdom's ability to meet commitments in Chapter 5, at the time the United Kingdom's implementation of advance rulings was a work in progress and the Members requested the United Kingdom keep CPTPP Members apprised on progress. In April 2023, the United Kingdom introduced advance rulings for valuation- fully implementing the commitments in Chapter 5.

Chapter 6 (Trade Remedies)

The CPTPP members reviewed the United Kingdom's ability to comply with the rules stipulated in Chapter 6 since July 23, 2021 upon the United Kingdom's response to questions from the CPTPP. There were several rounds of written questions-and-answers communications between the CPTPP members and the United Kingdom. Following these communications, the working group completed its work on March 31, 2023.

Chapter 7 (Sanitary and Phytosanitary Measures)

The CPTPP members reviewed the United Kingdom's ability to comply with the rules stipulated in Chapter 7 through the Sanitary and Phytosanitary (SPS) expert working group. The working group held several rounds of virtual meetings and written questions-and-answers communications between the CPTPP Parties and the United Kingdom since July 2021. The SPS expert working group conducted its assessment of the United Kingdom's ability to comply with the obligations of this Chapter from various aspects, taking into consideration of the positions of respective CPTPP Parties. Following the assessment, the working group completed its work on March 31, 2023.

Chapter 8 (Technical Barriers to Trade)

The CPTPP members reviewed the United Kingdom's ability to comply with Chapter 8 since July 23, 2021, taking into account the United Kingdom's responses to questions from the CPTPP members. The CPTPP members held several video conferences and rounds of written questions-and-answers with the United Kingdom. Following these exchanges, the working group decided to insert a clause in the Accession Protocol that nothing in paragraph 17 of Annex 8-A of the CPTPP

shall be construed to require the United Kingdom to apply this paragraph in a manner inconsistent with its obligations under the Agreement on the Withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community done on January 24, 2020, and the working group completed its work on March 31, 2023.

Chapter 9 (Investment)

Since July 23, 2021, the CPTPP members reviewed the United Kingdom's ability to comply with the rules stipulated in Chapter 9 through several rounds of virtual and in person meetings and written communication between the CPTPP members and the United Kingdom. Following this period of information-sharing and discussions, the working group completed its work on March 31, 2023.

As some issues were closely linked with the market access stage of negotiations, the CPTPP members carried out the review of the United Kingdom's compliance concurrently with the discussions on the United Kingdom's market access offers with regards to investment and cross-border trade in services.

Chapter 10 (Cross-Border Trade in Services)

The CPTPP members reviewed the United Kingdom's ability to comply with the rules stipulated in Chapter 10 since July 23, 2021 upon the United Kingdom's response to questions from the CPTPP members. Following several rounds of written questions-and-answers communications between the CPTPP members and the United Kingdom, the expert group on rule compliance on Chapter 10 completed its work on rule compliance by March 31, 2023.

Following the United Kingdom's submission of the initial market access offer on investment and cross-border trade in services in the form of NCMs as set out in the United Kingdom's Schedules to Annex I and II of the CPTPP on March 18, 2022, the joint expert group on Investment and Cross-Border Trade in Services was established to discuss the United Kingdom's offer. As the joint expert group on Investment and Cross-Border Trade in Services, the experts from the CPTPP members and the United Kingdom discussed intensively each of the United Kingdom's NCM entries and the totality of the United Kingdom's Schedules through a number of in-person and virtual meetings as well as through written communications. Throughout the course of the negotiation, the United Kingdom submitted several revised offers. At the end of the negotiation, the CPTPP members confirmed that the United Kingdom provided a commercially meaningful market access offer of the highest standard meeting the benchmark for accession on investment and cross-border trade in services. The CPTPP members also confirmed that respective members' Schedules to Annex I and II of the CPTPP will apply to the United Kingdom, with a clarification of each member's Annex II NCM entry concerning Most-Favoured-Nation (MFN) Treatment obligation to the effect that forward-looking MFN obligation would apply between the CPTPP members

and the United Kingdom from the date of entry into force of the Accession Protocol in a symmetrical fashion.

On March 3, 2023, the CPTPP members and the United Kingdom substantially concluded the market access negotiation on investment and cross-border trade in services.

Chapter 11 (Financial Services)

Since October 2021, the CPTPP members have reviewed the United Kingdom's ability to comply with the rules set forth in Chapter 11 and, since March 2022, they reviewed the required level of ambition of the United Kingdom's financial services market access offer. In respect of the former, the CPTPP members held numerous video conferences and several rounds of written questions-and-answer communications with the United Kingdom and the working group completed its work on rule compliance on March 31, 2023.

In respect of the United Kingdom's financial services market access offer, which it tabled in March 2022, the United Kingdom and CPTPP Parties worked together, through a series of virtual sessions and one in-person meeting, to ensure that the United Kingdom's offer met the high level of ambition expected of economies acceding to the Agreement. The United Kingdom's final market access offer includes NCMs specified in Annex III consisting of 5 headnotes, one reservation in Section A on market access for financial institutions and one in Section B on the Most-Favoured-Nation treatment of cross-border financial service suppliers. Overall, the negotiated outcome reflects the high-standard and level of ambition expected of CPTPP members. Accordingly, negotiations substantively concluded in December 2022.

Chapter 12 (Temporary Entry for Business Persons)

The CPTPP members reviewed the United Kingdom's ability to comply with the rules stipulated in Chapter 12 since mid-2021. Following communications between CPTPP members and the United Kingdom, the working group completed its work on rule compliance on February 18, 2022.

As for negotiations on the United Kingdom's schedule of commitments, the United Kingdom submitted several offers between March 2022 and March 2023. CPTPP members and the United Kingdom had intensive discussions on the offers through a number of virtual and in-person meetings and exchanged several documents, including CPTPP members' requests and technical considerations. The United Kingdom also confirmed how each commitment would be implemented through its visa regime.

Consistent with some CPTPP members' Chapter 12 commitments, the United Kingdom's final offer was on a reciprocal basis in relation to most categories (with the exception of some Business Visitor activities and Intra-Corporate Transferees) and did not reserve the right to impose economic needs tests/labour

market tests in any category. The United Kingdom made commitments across a significant number of categories.

The CPTPP members confirmed that the United Kingdom has provided a commercially meaningful market access offer of the highest standard on temporary entry. As a result, the negotiations on Chapter 12 concluded in a mutually satisfactory manner.

As per the United Kingdom's definitions of 'territory', the United Kingdom's Temporary Entry commitments do not extend to Crown Dependencies and Overseas Territories at the date of the United Kingdom's accession to the CPTPP. However, the Accession Protocol includes provisions on future extension of the CPTPP, including Temporary Entry, to the Crown Dependencies and Overseas Territories as well as a notification mechanism should immigration measures relating to the Crown Dependencies be modified.

Chapter 13 (Telecommunications)

The CPTPP members reviewed the United Kingdom's ability to comply with the rules stipulated in the Chapter 13. The working group asked the United Kingdom questions relating to its compliance with some articles: Article 13.1 (Definitions); Article 13.4 (Access to and Use of Public Telecommunications Services); Article 13.5 (Interconnection with Suppliers); Article 13.6 (International Mobile Roaming); Article 13.13 (Co-location by Major Supplier); Article 13.19 (Scarce Resources). Following the United Kingdom's responses, including follow-up questions relating to the United Kingdom's compliance with Article 13.5 (Interconnection with Suppliers), the working group completed its work on February 18, 2022.

Chapter 14 (Electronic Commerce)

The CPTPP members reviewed the United Kingdom's ability to comply with the rules stipulated in Chapter 14 since July 23, 2021 upon the United Kingdom's response to questions from the CPTPP. The CPTPP members held several video conferences with the United Kingdom and there were several rounds of written questions-and-answers communications between the CPTPP members and the United Kingdom. Following them, the working group completed its work on March 31, 2023.

Chapter 15 (Government Procurement)

The CPTPP members reviewed the United Kingdom's ability to comply with the rules stipulated in Chapter 15 through several rounds of written questions-and-answers communications between the CPTPP members and the United Kingdom since July 23, 2021. Following this exchange, the working group completed its work on rule compliance on February 18, 2022.

Government Procurement market access negotiations were based on the United Kingdom's initial offer and subsequent revised offers responding to the

CPTPP members' requests and concerns. These negotiations took place at scheduled negotiating rounds and intersessional virtual meetings and focussed on achieving comprehensive coverage of entities, goods, services and construction services (including build-operate-transfer and public works concession contracts) and positive outcomes for all the CPTPP members. The negotiated outcome was commercially meaningful and reflected the high level of ambition expected of CPTPP members. Accordingly, the CPTPP members and the United Kingdom substantially concluded the market access negotiations on Government Procurement on March 31, 2023.

Chapter 16 (Competition Policy)

The CPTPP members reviewed the United Kingdom's ability to comply with the rules stipulated in Chapter 16 since July 23, 2021 upon the United Kingdom's response to questions from the CPTPP members. There were several rounds of written questions-and-answers communications between the CPTPP members and the United Kingdom. Following these communications, the working group completed its work on February 18, 2022.

Chapter 17 (State-Owned Enterprises and Designated Monopolies)

The CPTPP members reviewed the United Kingdom's ability to comply with the rules stipulated in Chapter 17 through several rounds of written questions-and-answers communications between the CPTPP members and the United Kingdom since July 23, 2021 upon the United Kingdom's response to questions from the CPTPP members. The CPTPP members and the United Kingdom exchanged views on the United Kingdom's state-owned enterprises (SOEs) and relevant systems, including discussions on the United Kingdom's provisional SOE list. Following these communications, the working group completed its work on rule compliance on March 31, 2023.

As for NCMs negotiations, the CPTPP members and the United Kingdom had intensive discussions through a number of virtual and in-person meetings, as well as intersessional written questions-and-answers communications, after the United Kingdom submitted its offer on Chapter 17 in March 2022. The United Kingdom confirmed that it did not require any non-conforming measures for State-Owned Enterprises and Designated Monopolies in Annex IV (State-Owned Enterprises and Designated Monopolies Non-Conforming Measures). The CPTPP members and the United Kingdom also had intensive discussions on its Annex 17-D (Application to Sub-Central State-Owned Enterprises and Designated Monopolies) proposal. Through these discussions, the United Kingdom provided a clear explanation for its Annex 17-D proposal. Through these communications, the United Kingdom demonstrated that its offer on Chapter 17 met the highest standard and was commercially meaningful.

As a result, the negotiations on Chapter 17 concluded in a mutually satisfactory manner.

Chapter 18 (Intellectual Property)

The CPTPP members reviewed the United Kingdom's ability to comply with the rules stipulated in Chapter 18 through several rounds of written question-and-answer exchanges and video conferences between the CPTPP members and the United Kingdom. With respect to Article 18.32 (Grounds of Opposition and Cancellation), CPTPP members confirmed that the United Kingdom will make domestic legislative changes in order to comply with the CPTPP obligation in this area. For the purpose of Article 18.38 (Grace Period), CPTPP members confirmed that the United Kingdom shall endeavour to promote harmonisation in international fora regarding a grace period consistent with that Article, and consequently shall endeavour to promote the adoption of amendments to the *European Patent Convention*,^[1] and, as needed, to the *Strasbourg Patent Convention*,^[2] to incorporate provisions which are substantially the same as, and not inconsistent with, Article 18.38. Article 18.38 shall apply to the United Kingdom after the date on which those amendments have entered into force for the United Kingdom. Until the amendments enter into force, the United Kingdom shall provide a yearly written report to the Parties to the CPTPP for which the Protocol has entered into force, beginning on the anniversary of the date of entry into force of the Protocol for the United Kingdom, regarding the specific actions the United Kingdom has taken in the preceding 12-month period to promote harmonisation and the adoption of grace period rules in international fora including the European Patent Organisation. CPTPP members and the United Kingdom have agreed that disputes between the United Kingdom and any other CPTPP Party arising from this outcome shall be subject to the dispute settlement procedures under Chapter 28 (Dispute Settlement) of the TPP as incorporated into the CPTPP.

IV. CONCLUSIONS

1. The AWG examined the explanations of the United Kingdom concerning its commitments to comply with all the existing rules contained in the CPTPP and whether the market access offers submitted by the United Kingdom met the benchmarks set out in the Accession Process as illustrated above.

2. As a result of such examination of the compliance with the CPTPP rules by the United Kingdom and commitments made by the United Kingdom in its market access offers, the AWG reached the conclusion that the United Kingdom should be invited to join the CPTPP under Article 5 of the CPTPP. For this purpose, the AWG prepared the Draft Commission Decision and Draft Accession Protocol reproduced in the Annex to this Report, including the United Kingdom's Tariff Schedule, the United Kingdom's Schedules of Non-Conforming Measures on Investment, Cross-Border Trade in Services and Financial Services, the United Kingdom's Schedule of Commitments for Temporary Entry of Business Persons, and the United Kingdom's Schedule of Government Procurement that were annexed to the Draft Accession Protocol. The AWG now proposes that these texts be adopted by the Commission. When the Draft Commission Decision as well as the Draft Accession Protocol are adopted by the CPTPP Commission, the Accession Protocol will become open for acceptance by the United Kingdom. The United Kingdom will become a Party to the CPTPP after the conditions stipulated in the Accession Protocol are met. The AWG agreed, therefore, that it had completed its work concerning the accession process of the United Kingdom to the CPTPP.
