

The new Indo-Pacific Economic Framework: Why IPEF matters for New Zealand

The Indo-Pacific Economic Framework for Prosperity looks ahead to key issues facing our region, including decarbonising our economies, harnessing the digital economy, and making our supply chains more resilient.

Sustainability and inclusivity are embedded throughout the Framework. IPEF is not a free trade agreement and offers no new market access for goods and services. But it focuses on facilitating trade, tackling non-tariff barriers and improving regulatory practice in areas affecting trade.
