New Zealand - Gulf Cooperation Council Free Trade Agreement

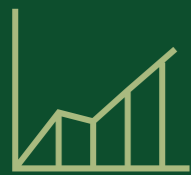

Collectively the member nations of the GCC have a population of

54 million people

a total GDP in excess of

\$3.464 trillion USD

This gives New Zealand a foothold in the Middle East and is consistent with

our aspiration to double the value of our exports by 2030

It gives preferential access to our primary sector, locking in

zero tariff access for our dairy industry

The agreement includes ground-breaking

provisions on labour and environment
