

Postgraduate qualifications relevant to Health

Note: This list is intended to give New Zealand Scholarship applicants a sense of the range of courses that could align with the priority sector of Health. It is not a comprehensive list. Please check institution websites for their full range of courses and up-to-date information. You must do your own research on what could be the best programmes of study and institutes for you.

For information about undergraduate courses, refer to the separate information sheet on Undergraduate qualifications relevant to Health.

Note: Scholarship students are only eligible to study health-related courses that are open to international students, not those that require New Zealand professional registration for entry.
